## **AMBASSADOR'S CIRCLE**

Children of All Nations and Student Ambassador Exchange's Ambassadors Circle has been established to recruit and foster relationships with talented individuals from the education, business, scientific, philanthropic and entertainment industries who can actively support Student Ambassador Exchange's mission in unique ways.

As a nonprofit Student Ambassador Exchange is committed to raising awareness of international relations through academic and cultural exchange opportunities. With the support of volunteers from around the country our programs continue to provide unique experiences for students, teachers, and families from around the world.

Inspire cultural diversity and tolerance within your community. In this role, you'll help make it possible for international students from 15 countries to come to the U.S. and live with local host families. This life-changing experience for students and families enriches our communities by encouraging diversity and dialogue in a uniquely personal way.

Our goal is to find loving families to open their hearts and their homes to Student Ambassador Exchange Students. There is no typical SAE Host Family; they reflect the vast diversity of the U.S. with regards to culture, class, race, ethnicity, religion, and sexual orientation. With your help, we can encourage families in your area to share their daily lives with teenagers from every corner of the globe, thereby increasing cultural understanding and acceptance.

By volunteering with SAE, you can help bring the world into your community. Join us as we work to create bridges across cultures and spread the message of peace through understanding.

## **WHAT'S INVOLVED**

## What Ambassadors Do

Ambassadors work—individually and collectively—with the Student Ambassador Exchange board and programs teams on a variety of efforts. They help SAE expand its network of partners and supporters, advise us on policy and trends affecting immigration and travel, participate in social media and other campaigns to build awareness about the issues we care about, host events, and much more.

Each Ambassador serves as a vital link to the networks, industries, and geographic areas and are essential to growing Student Ambassador Exchange's reach and impact.
